

Conference

The Future for Solar & Storage in Scotland 2025

A conference connecting the people, ideas, and
action driving Scotland's solar future.

Tue 11 November,
9:00 – 5:00pm

COSLA, Verity House, 19
Haymarket Yards Edinburgh,
EH12 5BH

Event overview

Join us this November in Edinburgh for The Future of Solar & Storage in Scotland 2025 – Scotland’s premier event dedicated to advancing solar energy and storage solutions. Hosted by Solar Energy Scotland at the COSLA Conference Centre, this landmark conference will bring together industry leaders, innovators, policymakers, and investors to explore the pivotal role solar and storage will play in achieving Scotland’s net-zero ambitions.

With a packed agenda featuring keynote speeches, expert panels, and networking opportunities, this is the ideal platform for sponsors and exhibitors to showcase their expertise, connect with key decision-makers, and align their brand with the future of clean energy in Scotland.

Don’t miss your chance to be part of shaping the next chapter of Scotland’s energy transition!

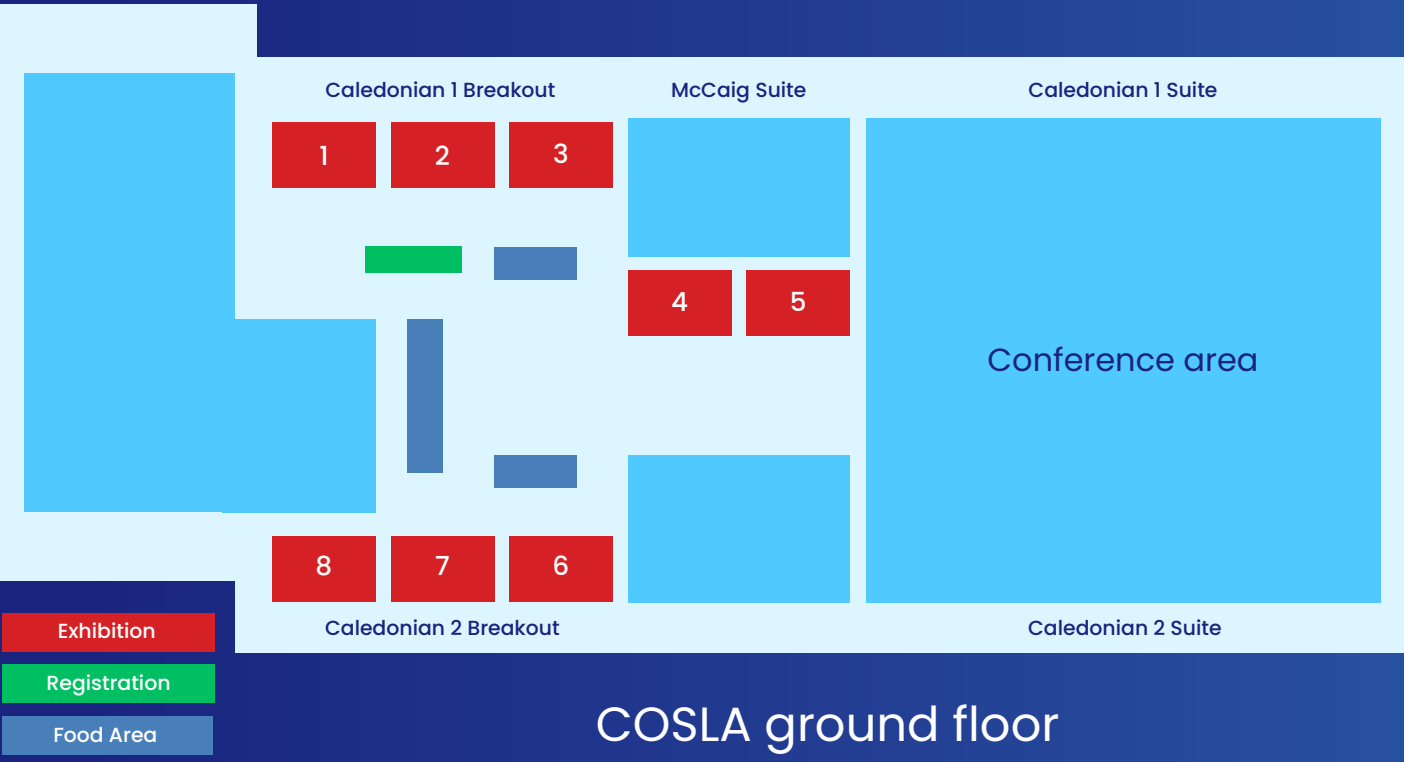

Tue 11 November,
9:00 – 5:00pm

COSLA, Verity House, 19 Haymarket
Yards Edinburgh, EH12 5BH

What key themes will be explored?

More speakers coming soon. Visit www.solarenergyuk.org for updates.

Session 1:

Looking at the potential for solar and battery storage in Scotland, this session will set out the industry's policy asks ahead of the 2026 election, and places these within a wider European and global context.

Participants:

- Global Solar Council
- SolarPower Europe
- Solar Energy Scotland

Session 2:

Exploring a wide range of approaches to the design and delivery of solar and storage schemes, this session provides an opportunity to hear from those delivering projects at every level, including community, municipal, commercial and ground mounted, or utility scale, schemes.

Participants:

- Stirling Council
- Edinburgh Council

Session 3:

Grid access, connection processes, capacity limits and affordability are just some of the subjects that will be discussed in this session – relevant to rooftop and utility scale schemes alike.

Participants:

- NESO
- SSEN
- SPEN
- Roadnight Taylor

Session 4:

The benefits of solar and battery storage extend beyond lower bills and greener power. This session will consider a range of other benefits, including economic growth, training and employment, supply chain opportunities, biodiversity improvements and energy security, while also addressing common misconceptions.

Participants:

- Biggar Economics
- Optimat
- Orbit Communications

How can my organisation participate & what are the benefits?

£2995

Headline Sponsors x4

Brand Visibility

- Prime logo placement across all event and promotional materials
- Exclusive branding on delegate lanyards and badges
- Prominent logo display on event projection/wall
- Logo and profile featured on the event registration landing page
- Branding in Solar Energy UK bulletins and all email campaigns to 400+ members
- 3 dedicated LinkedIn promotions (pre-, during, and post-event) to a 32K+ audience

On-site Promotion

- Product placement opportunity at the venue
- Branded tabletop exhibition space and pop-up banner area

Exclusive Recognition

- Live sponsor acknowledgment by Solar Energy UK CEO
- Sponsor photo opportunity for promotional use
- 4 complimentary delegate passes

£750

Exhibition Stand x8

Brand Exposure

- Dedicated space for tabletop stand and pop-up banners
- Product placement opportunity in key event areas
- Photo opportunity for branded promotional content

Engagement

- 2 complimentary conference passes for your team

**£80
£30**

Delegates – Non members £80; Members & stakeholders £30

- Access to All Sessions
- Networking Opportunities
- Exhibition Zone Entry
