

# Membership Overview 2026

## About Us

As an established trade association working for and representing the entire solar and energy storage value chain, **Solar Energy UK** represents a thriving member-led community of 450+ businesses and associates, including installers, manufacturers, distributors, large-scale developers, training providers, investors, and law firms.

Our underlying ethos has remained the same since our foundation in 1978 – to be a powerful voice for our members by catalysing their collective strengths to build a clean energy system for everyone's benefit.

**Our mission is to empower the UK solar transformation.** Together with our members, we are paving the way for solar to deliver 60GW by 2030 and 23-27GW of energy storage by 2030 by enabling a bigger and better solar industry.

# Why Become a Member

## **Expand Your Network & Grow**

Join exclusive networking events with industry leaders, exchange best practices, gain insights from forums, and connect with businesses to diversify and grow your own.

## **Stay Ahead & Informed**

Access member-only portal, market intelligence briefings, quarterly updates, and insights into rooftop and utility-scale developments to stay at the cutting edge.

## **Shape the Industry's Future**

Collaborate in member-only Forums and Steering Groups, lead industry advancements, and play a vital role in driving growth and shaping the sector through policy and advocacy efforts.

Benefits	Tier 1	Tier 2	Tier 3 & Above
<b>Core Membership</b>

# Our Forums

**Our forums are a hub for collaboration and innovation**, where our members come together to tackle pressing challenges, build valuable networks, exchange insights and expertise, and influence government policies. This collective effort is driving the advancement and transformation of the UK solar energy sector.

## Utility-Scale Forum

Brings together industry experts to discuss trends, challenges, and best practices in large-scale solar projects, including finance, grid connection, O&M, and policy.

## Rooftop Forum

Our Rooftop Forums focus on the residential and commercial rooftop solar market. Topics include installation techniques, financing options, energy storage, and policy incentives.

In 2025 **Solar Energy UK** organised a total of 6 Utility-Scale and Rooftop forums followed by networking events. These initiatives facilitated knowledge sharing, collaboration, and community building within the solar industry.

# Scotland Working Group

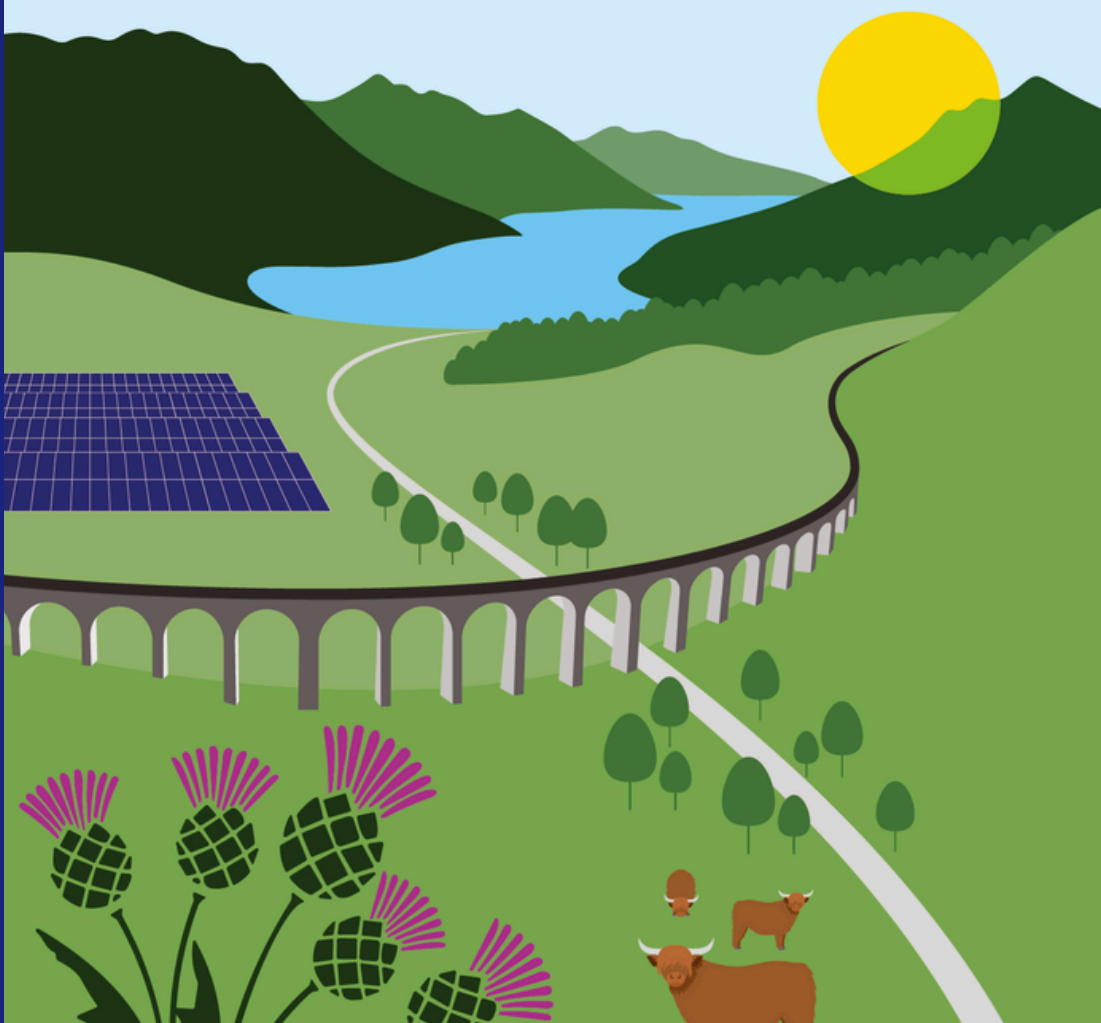

## Strengthening policy to unlock Scotland's solar and energy storage potential.

Solar Energy Scotland works to shape policy that will enable Scotland to fully realise its potential for solar and energy storage applications within the power, heat and transport sectors.

The Scotland Working Group focuses on accelerating Scotland's energy transformation by removing key planning barriers, addressing grid constraints, reforming non-domestic rates, targeting the delivery of 4-6GW by 2030.

In 2025, Solar Energy Scotland ran 3 working groups and delivered "***The Future of Solar & Storage in Scotland***" conference in November, supported by networking events that fostered strong industry connections.

# Steering Groups

Our nine Steering Groups enable in-depth discussion and problem-solving on key issues; harnessing members' specialist knowledge and expertise, which is shared in our all-member Forums and used to influence the work of government and wider stakeholders.

These Steering Groups address the following areas:

- ✓ Responsible Sourcing
- ✓ Planning and Land-use
- ✓ Natural Capital
- ✓ Grid Steering Group
- ✓ Strategic Communications
- ✓ Economics and Markets
- ✓ Skills and Workforce
- ✓ Standards and Certifications
- ✓ UK Supply Chain

Each Steering Group has a maximum capacity of 20 members, each with a named attendee and a substitute, to ensure consistent participation and focused discussion over time. Each Steering Group sits for a two-year term, with meetings held at least four times a year, subject to the issues under discussion.

All nine Steering Groups were formed, or re-constituted in 2025, however, places do become available and calls for applications are issued to all members every six months, where places are available. Meetings are held in person or online, depending on the group's needs.

# Join Our Members' Receptions 2026

- **Parliamentary Reception** | 22 April
- **Summer Reception** | 18 June
- **Member's Networking Reception at Solar & Storage Live** | 23 September

These industry insider celebrations bring together influential solar and storage industry business leaders to enjoy a relaxed setting and engage in meaningful conversations with like-minded industry peers for a remarkable networking, celebration, and collaborative evenings.

### Why Get Involved

Get your brand and opportunities in front of an active nationwide talent pool:

- **9,600+** candidates in our digital database
- **1,000+** monthly website visitors
- **1,000+** in-person connections each year at events

Access talent with transferable skills for roles like: Installer, Technician, Electrical or Design Engineer, Electrician, Project Manager, PV Roofer, Marketing, Business Development, Analyst and more.

### How to Get Involved

**Advertise. Sponsor. Exhibit. Present. Train. Demo.**

Your involvement lets you:

- Hire for specific roles or promote career pathways
- Showcase training courses, workshops and qualifications
- Build brand visibility aligned with Solar Careers UK
- Demonstrate products and technologies
- Connect with industry peers

### Where to participate

- SCUK Website Listing: Job Vacancies, Training & Qualifications
- Solar Careers Hub Glasgow
- National Transition Event
- S&SL Careers Zone
- S&SL Installer Training Hub
- InstallerFUTURES Solar

# Membership Fees 2026

Membership Tier	For Asset UK Corporate owners or turnover Investors owned	UK Corporate Turnover	Annual Fee
Tier 1	n/a	< £2m	£1,440
Tier 2	<200MW	£2m-£10m	£3,890
Tier 3	200-400MW	£10m-£24m	£6,780
Tier 4	400-600MW	£25m-£50m	£9,280
Tier 5	600MW-1GV	£50m-£100m	£13,000
Tier 6	n/a	£100m+	£16,680
Sponsorship Tier	n/a	n/a	£30,000

\*Non-UK registered companies are required to join at Tier 2 or above.
